This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. THE TOWN OF GREENFIELD, Franklin County, was established as a district June 9, 1753, from a part of Deerfield.

August 23, 1775, the district was made a town by general act.

September 28, 1793, part was established as Gill.

April 14, 1838, part was annexed to Bernardston.

May 2, 1896, part of Deerfield was annexed to Greenfield.

Population by Census: 1765 (Prov.), 368; 1776 (Prov.), 735; 1790 (U.S.), 1498; 1800 (U.S.), 1254; 1810 (U.S.), 1165; 1820 (U.S.), 1361; 1830 (U.S.), 1540; 1840 (U.S.), 1756; 1850 (U.S.), 2580; 1855 (State), 2945; 1860 (U.S.), 3198; 1865 (State), 3211; 1870 (U.S.), 3589; 1875 (State), 3540; 1880 (U.S.), 3903; 1885 (State), 4869; 1890 (U.S.), 5252; 1895 (State), 6229; 1900 (U.S.), 7927; 1905 (State), 9156; 1910 (U.S.), 10427.

EXPLANATIONS

1. The fact that a birth, marriage, or death is recorded in Greenfield does not prove that it occurred in this town; but when places other than Greenfield and Massachusetts are named in the original records, they are given in the printed copy.

2. In all items from town records the original spelling is followed, and no attempt is made to correct errors appearing in the records.

3. The various spellings of a name should be examined, as items about the same family or individual may be found under different spellings.

4. A baptism is not printed, if it occurs within one year after the recorded date of birth of a child of the same name and parents or if it is clear that the child baptized is identical with the child of the birth record; but variations found in the baptismal record are added to the birth record.

5. The birth of a married woman is recorded under her maiden name, if it is known. But if the maiden name cannot be determined, the entry appears under the husband's name, with a dash enclosed in brackets, i.e., [———], to signify that the maiden name is unknown. If it is not known whether the surname is that of a married or unmarried woman, ? m. is placed in brackets after the Christian name.

6. Marriages and intentions of marriage are printed under the names of both parties. When both the marriage and intention of marriage are recorded, only the marriage record is printed; and where a marriage appears without the intention being recorded, it is designated with an asterisk.

7. Additional information which does not appear in the original text of an item, i.e., any explanation, query, inference, or difference shown in other entries of the record, is bracketed. Parentheses are used to show variations in the spelling of a name in the same entry, to indicate the maiden name of a wife, to enclose an imperfect portion of the original text, and to separate clauses in the original text.
